GIO Greenhouse Gas Inventory Office of JAPAN 4

Expected outcomes and process in the workshop

- To exchange information and experiences on the GHG inventories including the recent trends and development in UNFCCC and IPCC,
(Opening sessions, Session I and II)
- To discuss and finalize the conclusion on issues raised in the presentations such as;
(1) institutional arrangements for inventories preparation,
(2) methodologies for inventories preparation,
(3) others including future direction and cooperation,
(Session III)
- To prepare the summary and report,
(Session III – Wrap-up)
- To clarify the future direction (and action items)
