

KOREA'S EXPERIENCE IN AWARENESS RAISING ABOUT GHG INVENTORY AND CLIMATE CHANGE

THE 6TH WORKSHOP ON GHG INVENTORIES IN ASIA(WGIA6)
16-18 JULY, 2008, TSUKUBA, JAPAN

Kyonghwa Jeong

Activities in awareness raising about GHG inventory and climate change in Korea

- ◆ Korea Climate Change Week
- ◆ Internet Portal Sites
- ◆ Education

1. Climate Change Week

❖ Awareness Raising and Information Campaign

- Events
 - Performance of global warming
 - Exhibitions
 - Carbon Neutral Campaign
 - CO₂ emission calculation events(Carbon Tree Calculator)

Korea Energy Economics Institute

1. Climate Change Week

- ❖ Strengthening the capacity of private and public sectors
 - Seminars on climate change and sectors
 - Climate change and industry
 - International carbon market trends
 - Climate change and local government
 - Seminar tour in regions with topics about GHG reduction and post 2012 framework

2. Internet Portal Sites

- ❖ GHG emissions
- ❖ Publication/Information on climate change
- ❖ GHG emissions accounting guidelines
- ❖ ET & CDM-related training programs

에너지환경

지구온난화란?

대기중에 있는 온실가스가 지표로부터 방출되는 에너지를 흡수하여 지구가 더워지는 현상을 말합니다. 지구온난화로 인하여 사막화, 해수면 상승, 생태계 변화 등의 부정적 효과를 일으키게 합니다.

지구가 뜨거워지고 있는데!

Korea Energy Economics Institute

Korea Energy Management Corporation

The screenshot shows a Microsoft Internet Explorer window for the '기후변화협약' website (<http://co2.kemco.or.kr/index.asp>). The page features a cartoon character holding a globe, with the title '기후변화협약' and a subtitle '우리 모두의 지혜가 모여 자연과 화해하는 지혜의 시대를 열어 나갑니다.' It includes a login form, a survey section, news, and a calendar.

The screenshot shows a Microsoft Internet Explorer window for the 'GEIS' website (<http://geis2.kemco.or.kr/>). The page features a large illustration of a city skyline with trees, with the title '체계적인 기후변화협약 대응을 위한 온실가스 통계의 기반구축에 GEIS 가 앞장서겠습니다.' It includes sections for '온실가스 배출량 정보시스템', 'Download center', and a 'FAMILY SITE' menu.

Korea Energy Management Corporation

- ❖ GEIS (Greenhouse gas Emission Information System)
 - Web program for accounting and registration of companies GHG emissions(voluntary)
 - Developed for generation, chemical, steel, and semiconductor
 - Developing for refinery, cement, paper, non-metallic, and transportation

Climate Change Information Website

The screenshot shows a Microsoft Internet Explorer window displaying the S.CO2.S Climate Change Information Website. The title bar reads "기후변화 홍보포털 - Microsoft Internet Explorer". The menu bar includes "파일(F)", "편집(E)", "보기(V)", "즐겨찾기(A)", "도구(I)", and "도움말(H)". The toolbar contains standard icons for back, forward, search, and file operations. The address bar shows the URL "http://www.gihoo.or.kr/portal/index.jsp". Below the address bar is a toolbar with links to Google, search engines, and other services. A message at the top states "팝업이 차단되었습니다. 팝업 또는 추가 옵션을 보려면 여기를 클릭하십시오.".

The main content area features a banner with the text "하나뿐인 지구, 우리가 만들어 가는 세상!" (One Earth, the world we are creating). The website navigation includes tabs for "기후변화란", "기후변화영향", "기후변화대책", "대응사업", "기후변화 DB", and "참여마당".

On the left side, there is a sidebar with sections for "우리정부 대응사업" (Government Response Programs) showing icons for forest management, energy efficiency, and greenhouse gas trading; "기/후/변/화/웹/진" (Webinars) for July 2007; and "기후변화 메일링서비스" (Emailing Service) for receiving news and seminar information via email.

The central part of the page displays the "기후변화 DB" (Climate Change Database) with a list of recent entries:

- 환경부, 마주대·중앙대를 기후변화 특성화대학... [2008.07.04]
- 기후변화 관련 G-20 조찬회의... [2008.07.03]
- 독일 정부 제2차 에너지·기후변화 패키지 의결... [2008.06.30]
- 유럽 환경청, 2006년 EU-27 온실가스... [2008.06.30]
- 환경부장관, 「폐기물 에너지화 및 기후변화 ... [2008.06.27]

Below the database, there are sections for "국제사회" (International Society), "정부" (Government), "기업" (Business), and "국민" (Citizens), each with a link to the "기후변화협약" (UNFCCC) and "교토의정서" (Kyoto Protocol).

At the bottom, there are links for "온/실/가/스 발생량 계산하기" (Calculate Emissions) and "기/후/변/화/상/식" (Climate Change Diet).

On the right side, there are sections for "세미나 / 컨퍼런스" (Seminar / Conference) featuring the "도산아카데미 창립 19주년 기념..." event, "전문가리포트" (Expert Report) for the "CM weekly_6월 2주차" report, and "이슈토론" (Issue Discussion) with a note that no issues are currently being discussed.

Korea Energy Economics Institute

3. Education

- ◆ Integrating climate change issues into the curriculum and developing instructional materials
- ◆ Appointing 3 universities as research institutes specialized in climate change and GHG inventory
 - Seoul National University : GHG emission inventory
 - Gyemyong University : GHG reduction policy
 - Korea University : Assessment of climate change effect and adaption

Outcomes of the activities

Outcomes of the Activities

- 
- ◆ Raising public awareness about global warming by integrating climate change issues into the curriculum and developing instructional materials
 - ◆ Facilitating public participation in actions to reduce GHGs by launching carbon neutral campaign and events

Outcomes of the Activities

- 
- ◆ Facilitating public and private access to information about climate change and GHG inventory by opening user-friendly climate change portal sites and implementing web training programs for CDM and ET
 - ◆ Strengthening the capacity of domestic industry on climate change convention by sharing industry's experience on climate change

The Way Forward

The Way Forward

- ◆ Develop a comprehensive regional GHG inventory DB system
- ◆ Develop a long-term public awareness program such as information dissemination about what we can do at home and at work for an effort to reduce GHGs(through internet portal sites, TV, newspaper)
- ◆ Help local government on climate change issues

Thank you

Korea Energy Economics Institute
